---

*Junior Full Stack Developer, with a degree in Systems Engineering, and 8 months of experience in the creation, design, and optimization of web applications. As a freelancer, I have worked with international clients, developing innovative platforms tailored to their needs. I have led the migration of thousands of records and improved internal systems during my professional internships, achieving a 30% increase in process efficiency. My focus is on creating innovative and efficient solutions, using modern technologies with a strong emphasis on efficiency and scalability in projects.*

## PROFESSIONAL EXPERIENCE

---

### iDoctus M3 Inc.

Backend Developer- Remote

**Madrid, Spain**

March 2025 – Present

- Collaborating in the creation of scalable and robust solutions, working with technologies such as PHP and Laravel.
- Actively participating in the design and implementation of new features, performance optimization, and problem resolution.
- Contributing to the continuous improvement of development processes, applying best practices and methodologies in a collaborative and remote environment.

### Freelance

Full Stack Developer - Remote

**San Francisco, California, United States**

December 2024 - January 2025

- I designed and developed the Pitchfy platform from scratch for a client in the U.S., using React, Node.js, and Express. The platform allows users to transform stories into compelling articles, easily connect with journalists, and increase their visibility effectively.
- I implemented an intelligent chatbot, which acts as the core of the platform, facilitating queries and enhancing user interaction efficiently.
- I integrated a Google login system using Google Cloud services and a payment system with Stripe.
- I deployed the backend on an AWS EC2 server, using MongoDB to manage data efficiently and ensure scalability.
- I completed the final deployment of the website using a domain acquired from GoDaddy, configured through AWS Route 53, ensuring a professional and seamless integration.
- I improved the SEO of the platform, increasing its visibility in search engines. Additionally, I optimized the website's performance by 50%, significantly improving load times and user experience.

### Instituto Técnico Domingo Savio (ITDS)

Full Stack Developer Intern

**Tarija, Bolivia**

March 2023 - August 2023

- I collaborated in the development and improvement of internal information systems using React and Node.js, optimizing the management of academic reports and student data. These improvements reduced report generation time by 30%, increasing the efficiency of administrative users.
- I updated and optimized the institutional website, developed in React, improving its usability and accessibility. As a result, user satisfaction increased, and technical queries were reduced by 15%.
- I designed and optimized SQL Server queries for generating academic reports requested by administrative staff. The automation of these processes reduced the time spent on repetitive tasks by 40%.
- I led the migration of over 10,000 student records to the SAD (Student Academic Database) system, ensuring a smooth transition and preserving data integrity.

## TECHNICAL SKILLS

---

### Frontend Development

- HTML
- CSS
- JavaScript
- TypeScript
- React
- Next.js
- Astro
- Tailwind CSS
- Figma
- Vite

### Backend Development

- PHP
- Laravel
- Node.js
- Express
- Django
- Python
- REST APIs
- GraphQL
- Swagger
- MongoDB
- PostgreSQL
- MySQL
- SQL Server
- Docker

### Other Skills

- AWS
- Google Cloud
- Azure DevOps
- Git & GitHub
- GitHub Actions
- Jenkins
- Vercel
- Postman
- Jest
- Stripe
- Cloudinary
- Scrum
- UML

## EDUCATION

---

### UNIVERSIDAD PRIVADA DOMINGO SAVIO

System Engineering

**Tarija, Bolivia**

*June 2024*

### Honors and Recognitions

- Recognized as Best Student of the Career in 2021, 2022 and 2023.
- Honorary Degree and Certificate as Third Best Student of the School of Engineering in 2023.
- Medal for Academic Excellence awarded at the end of my studies in 2024, in recognition of my outstanding academic performance throughout my career.

## ADDITIONAL SKILLS

---

- Leadership and adaptability skills, with the ability to learn new technologies and solve complex problems in collaborative environments.
- Proactive, responsible, and adaptable in dynamic environments.
- Native Spanish speaker with an intermediate level of English.

## CERTIFICATIONS

---

- AWS Cloud Practitioner Certification Course, Platzi - 2024
- Django Course, Platzi - 2024
- Docker Fundamentals Course, Platzi - 2024
- Git and GitHub Course, Platzi - 2024
- Advanced React Course, Platzi - 2024
