*Junior FullStack Developer, graduated in Systems Engineering, with 6 months of experience in the creation, design, and optimization of web applications. I have led the migration of over 10,000 student records and improved internal systems, achieving a 30% increase in process efficiency and optimizing database management. My focus is on creating innovative and efficient solutions using modern technologies, with an emphasis on the efficiency and scalability of projects.*

## PROFESSIONAL EXPERIENCE

**Instituto Técnico Domingo Savio (ITDS)**                                          **Tarija, Bolivia**
Full Stack Developer Intern                                                        *March 2023 - August 2023*

- I collaborated in the development and improvement of internal information systems, optimizing the management of academic reports and student data. These improvements reduced report generation time by 30%, increasing the efficiency of administrative users.
- I updated and optimized the institutional website, developed in React, improving its usability and accessibility. As a result, end-user satisfaction increased, and technical inquiries were reduced by 15%.
- I designed and optimized SQL Server queries for generating academic reports requested by the administrative staff. Automating these processes helped reduce the time spent on repetitive tasks by 40%.
- I led the migration of over 10,000 student records to the Student Academic Database (SAD) system, ensuring a smooth transition while preserving data integrity, including grades and academic resolutions.
- I provided technical support to the academic and administrative departments, resolving over 50 technical incidents and optimizing key processes in student data management.

## TECHNICAL SKILLS

Frontend Development
- HTML
- CSS
- JavaScript
- TypeScript
- React
- Next.js
- Astro
- Tailwind CSS
- Figma
- Vite

Backend Development
- Node.js
- Express
- Django
- Python
- MongoDB
- PostgreSQL
- MySQL
- SQL
- Docker
- Swagger

Other skills
- AWS
- Azure DevOps
- Git
- Github
- Postman
- Cloudflare
- Vercel
- Cloudinary
- Scrum
- VS Code

## EDUCATION

**UNIVERSIDAD PRIVADA DOMINGO SAVIO**                                          **Tarija, Bolivia**
System Engineering                                                                        *June 2024*

Honors and Recognitions
- Recognized as Best Student of the Career in 2021, 2022 and 2023.
- Honorary Degree and Certificate as Third Best Student of the School of Engineering in 2023.
- Medal for Academic Excellence awarded at the end of my studies in 2024, in recognition of my outstanding academic performance throughout my career.

## ADDITIONAL SKILLS

- Leadership and adaptability skills, with the ability to learn new technologies and solve complex problems in collaborative environments.
- Proactive, responsible, and adaptable in dynamic environments.
- Native Spanish speaker with an intermediate level of English.

## CERTIFICATIONS

- AWS Cloud Practitioner Certification Course, Platzi - 2024
- Django Course, Platzi - 2024
- Docker Fundamentals Course, Platzi - 2024
- Git and GitHub Course, Platzi - 2024
- Advanced React Course, Platzi - 2024
